

DAV RAO HARISHCHANDRA ARYA PUBLIC SCHOOL, NAGPUR

Pre-Primary Section (2025-2026)

Report on Vegetable Stamping – Our Fun Art Activity!

The pre-primary students of DAV Rao Harishchandra Arya Public School, Nagpur, participated in an exciting vegetable printing activity on the theme “Flower”. The children used vegetables like ladyfinger and onion, dipped them in bright colours, and printed them on paper to create beautiful flower patterns. The young learners enjoyed experimenting with colours and shapes while exploring their creativity. The activity brought smiles to their faces and helped them learn in a joyful and engaging way.

During this activity, we learned the names of different vegetables and how they look. We also learned how to use our hands and fingers while painting.

All the children had a great time using big and small vegetables to make prints. We loved seeing how the shapes appeared on paper and how our designs came to life. Vegetable stamping helped us be creative and learn while playing. It was a wonderful experience, and we all enjoyed making art with vegetables!
