

## PRE-PRIMARY SECTION

### Report on Bird Shadow Activity

The *Bird Shadow Activity* was conducted for LKG students to help them understand shadows in a creative way. Children placed their hands on chart paper, and the teacher sprinkled flour over them. When the hands were removed, their shadow shapes appeared clearly. The students were excited to see the outlines and enjoyed this fun and hands-on learning activity. This activity will developed observation ,fine motor, creativity and thinking skills.

## REPORT ON NUMBER COUNTING ACTIVITY

The Number Counting Activity was conducted for LKG students to help them learn numbers 1 to 5. Children made palm cutouts and used rubber bands to represent each number by counting the bands on the fingers. This fun, hands-on activity helped them understand number value, improved fine motor skills, and made learning enjoyable. This will developed counting, fine motor , hand-eye coordination and cognitive skills.
